Washington Gossip.

By Telegraph to THE SENTINEL.
WASHINGTON, March 14.—General Sheridan received a telegram from General Hatch to-day stating that the Oklahoma "boomers" have postponed their contemplated invasion of the Indian territory until the 15th inst. The postponement was determined upon before the receipt of the president's proclamation. Army officers express the opinion that the invaders will be disbanded.

In the enrollment of the naval appropriation bill the section providing for the abolition of the naval advisory board at the discretion of the secretary of the navy was omitted. The clause appropriating \$500,000 for the armament of the new cruisers was also omitted in the enrollment, although it was agreed to by both houses of congress.

In the sundry civil appropriation bill the item appropriating \$55,000 for the telegraph poles and material for the life saving service was also omitted.

The president and cabinet receive exceedingly heavy mail every day, which shows no signs of growing less. Col. Lamont smilingly remarked to-day, as he gazed upon the huge pile of unopened letters, that "if this state of things keeps up much longer I will have to persuade the president to order a stoppage of the mails for a few days so as to allow us to catch up."

The secretary of the treasury received a large number of anonymous communications making all sorts of scandalous charges against employees of the treasury department. He said this morning he wanted to have it known by everybody that he did not propose to take the least notice of anonymous letters, no matter what their character, and that it will be useless to send them to him.

Mr. Fairchild qualified as assistant secretary of the treasury this afternoon and will assume the duties of the office Monday morning.

PRESIDENTIAL PROCLAMATION.

The following proclamation was issued by the president of the United States of America: A proclamation.—Whereas it is alleged that certain individuals, associations of persons and corporations are in unauthorized possession of portions of the territory known as the Oklahoma lands within the Indian territory, which are designated, described and recognized by the treaties and laws of the United States, and by the executive authority thereof, as Indian lands.

Whereas it is further alleged that certain other persons or associations within the territory and jurisdiction of the United States have begun and set on foot preparations for an forcible entry, and settlement upon the aforesaid land, and are now threatening such entry and occupation.

Whereas the laws of the United States provide for removal of all persons residing or being found upon such Indian lands and territory without permission expressly and legally obtained of the interior department.

Now, therefore, for the purpose of protecting public interests as well as the interests of the Indian nations and tribes, and to the end that no person or persons may be induced to enter upon the said territory where they will not be allowed to remain without permission of the authority aforesaid, I, Grover Cleveland, president of the United States, do hereby warn and admonish all and every person or persons now in occupation of such lands, and all such person or persons as are intending, preparing or threatening to enter in or settle upon the same, that they will not be permitted to proceed upon said lands, or if already there will not be allowed to remain thereon; and that if due regard for the laws and treaties of the United States, and this admonition and warning be not sufficient to effect the purposes and intentions of the government as herein declared, the military power of the United States will be used to abate all such unauthorized persons to prevent such threatened entry and occupation and to remove all such intruders from the said Indian lands.

In testimony whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

An Extensive Newspaper Consolidation in Cleveland.

By Telegraph to THE SENTINEL.
CLEVELAND, March 13.—Negotiations which have been pending between the Herald Publishing company for the purchase of that concern by the Cleveland Leader Printing company and the Plaindealer Publishing company were consummated to-night. The total subscription list of news agents and carriers routes are to be transferred to and consolidated with the leader, together with files running back to 1879, the year the Herald was established. The Plaindealer takes the perfecting press, type, machinery and all the fixtures and will remove immediately into the Herald building and commence a morning edition in addition to its evening edition. The Plaindealer will be backed by abundant capital and will be made a first-class Democratic daily. The Leader will have its circulation increased by that of the Herald. The Associated Press franchise held by the Herald will be cancelled. The circulation of the Morning and Evening Herald for the past year ranged from 12,000 to 15,000 copies daily, which, added to the Leader, gives it a daily circulation of more than 35,000 copies.

Testimony Regarding the Transaction of the Firm of Grant & Ward.

By Telegraph to THE SENTINEL.
NEW YORK, March 13.—The trial of ex-President James D. Fish, of the defunct marine bank continued to-day in the United States court. Henry E. Dabell submitted statements of the accounts of Grant & Ward for 1884. It showed that the firm had to its credit, May 3, \$1,388,000. It drew on that day \$1,592,000, leaving a balance due the bank of \$418,000. On May 5th, deposits were made to the amount of \$616,000, against which was drawn out \$668,000, leaving the firm indebted to the bank \$52,000, and the bank failed the next day. Nathan D. Dabell, assistant cashier of the marine bank, was recalled and testified that on May 5th, President Fish received a letter from F. Ward and then directed the witness to deliver to the messenger from Grant & Ward \$100,000 in notes of the Chicago & Northwestern railroad, endorsed by the New York & Lake Erie railroad, and 150 shares of the Union dry dock, of Buffalo.

Ward, in his note, said if these securities were sent he had time to loan and would bring down a lot of bonds in their place the same day. The letter concludes, "Every little helps." The securities were withdrawn without the payment of the loan, which they intended to secure. The total of the call loans and over drafts which the firm of Grant & Ward had with the bank was \$2,066,000.

A Lesson for Those Who Aspire to Enter

The Newspaper Business.

By Telegraph to THE SENTINEL.
CLEVELAND, O., March 14.—Some valuable information for those who have a longing to go into the newspaper business can be had from the history of the Herald, which, after sixty-six years, has been wiped out for lack of sufficient nourishment. Years ago, when Fairbanks & Benedict managed it in the old-fashioned way, and when it had little or no competition, it divided large profits. Benedict died, and Fairbanks managed it his own way. It lost \$150,000 before he got through. He then sold out to Col. R. C. Parsons and Col. W. F. Fogg, while E. V. Snellay was brought from the New York Tribune to do the heavy standing around. Several years of amateur labor followed, with a loss of over \$70,000. Then S. T. Everett, who had a fight with the Leader on hand, A. L. Terrill, who had a candidate for editor on hand, and several capitalists, who had axes to grind, took hold and plied the paper in charge of J. O. Kettor and six other men from the Leader office. The same parties have since owned it, with various changes of management, and with a loss of \$120,000, a total of over \$320,000 in fifteen or eighteen years. It has now gone to the wall because the field was not large enough for two republican dailies. Over a hundred men will be thrown out of employment by the smash.

WHITE SEAL BURNING OIL

The New York board of health estimates that 20,000 lives have been destroyed by the explosive qualities of petroleum. If every house hold would adopt the White Seal oil for family use, some of these unfortunate accidents would occur.

WHITE SEAL BURNING OIL has none of the defects usually found in common oils. It cannot be exploded, does not char the wick, will not smoke, emits no offensive odor, and prevents the breeding of chimney.

WHITE SEAL BURNING OIL is a rich oil for illuminating purposes. It is as light in color as pure water. It gives a steady, steady light, and burns much longer than common oil.

If this oil is not sold in your vicinity, send your order direct to us for a barrel or a case containing two five gallon cans.

The use of Iodoform or mercurials in the treatment of catarrh—whether in the form of suppositories or ointments—should be avoided, as they are both injurious and dangerous. Iodoform is easily detected by its offensive odor. The only reliable catarrh remedy on the market to-day is Ely's Cream Balm, being free from all poisonous drugs. It has cured thousands of chronic and acute cases, where all other remedies have failed. A particle is applied into each nostril; no pain; agreeable to use. Price fifty cents; of druggists.

Inauguration Ball Costumes.
[Poet.]

We take great pleasure in presenting to our readers a few brief but graphic pen and pencil sketches of the beauties of the ball, as well as of the toilettes that have contributed to make the inaugural festivities of the 14th of March, 1885, so distinguished a success.

Among so many beautiful and exquisitely dressed ladies it was perhaps inevitable to make a choice for first place; but it seems to be an indisputable fact that the most imposing representative of American loveliness present at the ball was

MISS FAIRLY BUTTE.

Miss Fairly is the youngest daughter of Mr. Galahad Butte, of Butte & Bacon, the world-renowned pork packers. A beautiful and stately presence of some twenty summers, Miss Fairly swept through the hall attired in a lovely costume of crepe de chine, cut bouffant and trimmed with marquis and satins. A demi-train of maroon silk, with pascuierie a la beza, completed an inspiration of Worth which we believe has not been surpassed in many years.

MISS CINDERELLA RUFFAGE.

Miss Ruffage, although but 15 years of age, is considered the reigning belle of a western city. Her petite form and coy, piquant face elicited much favorable comment from the beholders. She was radiantly beautiful, last evening, in a pink bombe a la reine, with elephant's breath corsage, finished in a drape de grace silk. But the most striking part of her toilette was her refined and elegant chapeau. Her slippers, of polished hippopotamus skin, beautifully set off a pair of polka-dot stockings, au rez de chaussee. Her hands, of snowy whiteness, were encased in diamond-hinged Report gloves as to the number, but it is thought that four kids died to hide those beautiful hands.

Culture contributed her quota to the elegance of the ball in the person of the two

MISSES CANTON-PANVILLE.

The last representative of the Canton-Panville family. These two sisters of New England's proudest society were arrayed exactly alike, in robes of aesthetic design, of the neo-pagan renaissance. The design included sleeves bouffant to the elbow, a square corsage, and a Russian jabotiere, of the style worn by Princess Kurnoff de Rouff at the installation of the present czar.

Scarcely less beautiful and striking, however was the exquisite toilet of

MISS ZENOBIA DE WABABACQUE.

Miss Zenobia is universally admitted to be one of the brightest bulks in the "Rockies" glorious galaxy. Of slighter proportions than Miss Butte, Miss Zenobia yet boasts a figure of aristocratic elegance and unsurpassable grace. Her dress was of a sweet and effective simplicity: a plain Astrakhan satin, fitting closely to the waist, and thence falling in pure Greek folds to a border of three-ply tulle, skirted with empressment. Nothing could have been simpler or more pleasing to the eye. A few plumes of the phalacro bird nestled in her rignon hair.

Two Dollars to Get a Dime.
[Novian Independent.]

Through the telephone: "Is that you, doctor?"

"Yes, who is it?"

"Mrs. Morony. Oh, doctor, what shall I do for baby? He has swallowed a dime."

"Well, you surely don't want to spend two dollars to get a dime, do you?" And the telephone ceased to work.

AMUSEMENTS.

Storm Beaten.

Shook & Collier's company presented Robert Buchanan's picturesque drama, "Storm Beaten," to a small but appreciative audience at the Temple last night. The scenery was simply grand and the members of the troupe were excellent. Edmund Collier deserves especial mention. The drama will be repeated to-night and the Temple should be packed, because the show is the finest ever seen here.

Salvation Oil, the greatest cure on earth for pain, has no equal. Persons suffering from rheumatism, neuralgia or from cuts, bruises, sprains, etc., should not be without it. Cures are effected in an incredibly short time. Price only twenty-five cents a bottle. For sale by all druggists.

RICHARDS GOOD FOR LIFE.

The people of Adams county hate Richards and noting his removal to the prison north the Decatur Democrat says: "Many of our people had become so disgusted with the dallying of the Richards case, that had a new trial been granted, they would have demanded that the prosecution cease and all efforts to mete out justice to the criminal, by a process at law, be abandoned as a worthless task. What would have followed is only a conjecture. The prisoner and attorneys may rest under the impression that a pardon may be granted in the near future. If such is the case, it is mere delusion. No man now living in this community will ever dare to circulate a petition asking for his pardon."

A Costly Piece of Head-Gear.

The crown of England has twenty diamonds around its chief circle, about \$150,000, and ever so many other diamonds and precious stones, the whole costing about \$500,000 of our money. Some people think Queen Victoria wears it every day, but she does not. "Unweary sleeps the head that wears a crown." Brown's Iron Bitters costs but a dollar, brings sleep to the nervous, strength to the debilitated and comfort to the rheumatic. Mrs. Wm. S. Lane, Frederica, Del., says: "Brown's Iron Bitters is the best remedy for lame back and liver complaint I ever used."

The Death List.

The city undertakers report the following deaths this week:

Michael Arter, aged 52 years, old age.

Mrs. Henry Kelker, 35 years, consumption.

Fred Boese, 28 years, typhoid fever.

Wilhelmina Wahrenburg, 2 years and 8 months, cramps.

Stella Green, 14 days, cramps.

One reason why diseases of the bladder and urinary organs are so difficult to cure is that they frequently have no pronounced symptoms. Hunt's Kidney and Liver Remedy is peculiarly adapted to the cure of these complaints, and goes at once to the seat of the trouble giving relief at once.

Newbern, N. C., was visited by a \$100,000 fire.

A Voice From Italy.

Rev. W. Van Meter, superintendent of the Italian Bible and Sunday School Mission at Rome, Italy, writes under date of Sept. 1, 1884: "The Italians call Pond's Extrem 'acqua di Dio' water of God. We use it for every ache and pain; it is indispensable in our medical department. I knew it was good before, but now I cannot find words to express my praise of its excellence." Invaluable for cuts, burns, bruises, catarrh, neuralgia, etc.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are suffering teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle. Sold every where.

A CARD.—To all who are suffering from errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a receipt that will cure you, free of charge. This great remedy was discovered by a missionary in South America. Send self-addressed envelope to Rev. JOSEPH T. INMAN, Station D, New York. ang 12 20-21

DYSPEPSIA

Causes its victims to be miserable, hopeless, confused, and depressed in mind, very irritable, languid, and drowsy. It is a disease which does not get well of itself. It requires careful, persistent attention, and a remedy to throw off the causes and tone up the digestive organs till they perform their duties willingly. Hood's Sarsaparilla has proven just the required remedy in hundreds of cases.

"I have taken Hood's Sarsaparilla for dyspepsia, from which I have suffered two years. I tried many other medicines, but none proved so satisfactory as Hood's Sarsaparilla." THOMAS CONN, Brush Electric Light Co., New York City.

Sick Headache

"For the past two years I have been afflicted with severe headaches and dyspepsia. I was induced to try Hood's Sarsaparilla, and have found great relief. I cheerfully recommend it to all." Mrs. E. F. ANNABLE, New Haven, Conn.

Mrs. Mary C. Smith, Cambridgeport, Mass., was suffering from dyspepsia and sick headache. She took Hood's Sarsaparilla and found it the best remedy she ever used.

A LECHEROUS SCOUNDREL.

Professor Kibbe, the Proseur Pedagogue. Betrayed a Kendallville Beauty and Used a Fort Wayne Man to Shield His Crime—The Hidden Woe and the Professor Wipes from His Face.

It is with great pain, but with, we hope, commendable indignation, that we make public mention in this issue of a scandal that has been running through society here for several weeks past, shocking and paining many hearts. The evidence now collected carries the suspicions and rumors so far into certainty that it would be all but a great wrong on our part not to make public mention of the matter. The accused has stood high in the community—was respected by all, so conformed in by the church to which he was attached that he was authorized to preach the sacred gospel of Him who never knew sin, and by the city school board, charged with the instruction of the children and youth of the city, employed for four years in the highest capacity at their hands to give. We have charity for the hasty sinner, charity for the ignorant and poorly educated sinner, charity for the strongly tempted sinner in whatever relation of life, but for the preacher, the educator, holding the most sacred relations to the public, who deliberately, under the cover of these professions, seeks the destruction of young girls placed under his charge, O, heaven! don't ask the charity of silence. The very stones ought to cry out for condemnation. There is a duty to the morally living, a duty to the unthoughtful youth who sometimes mistakenly fancy sin can be forever hid, there is duty to parents in aiding them in the protection of their homes from human fiends, and that duty is of more importance to us than the feelings of such a man.

For some months past it had been noticed that Prof. Kibbe was particularly kind and devoted to some girls. Some said he was "soft," but hardly thought of any greater significance to his silly attention, much less thought of entertaining an idea that there could be anything base in these attentions. A former graduate of his school, a beautiful girl of about twenty years, it was noticed, received marked attention from him. A few weeks ago they were both absent from the city a few days at the same time. A rumor was started that they were away together. The rumor became so significant that the school board thought it their duty, as it most assuredly was, to investigate the matter. Mr. Kibbe was invited before them and inquired of. At first he was disposed to question their right to inquire as to where he was when from the city, but finally said he went at the time to Mansfield, Ohio, giving the hotel where he stopped. The girl in the meantime reported that she had been visiting friends at Fort Wayne, and in a few days presented a letter signed by a Mr. Myers, of that city, stating she had been there. Dr. H. A. Moyer, one of the board, started out to investigate the matter. Mr. Kibbe accompanying him as far as Fort Wayne, where the girl friend Myers was interrogated and asked to make an affidavit, which he did but in such a manner that it only increased Mr. Moyer's suspicions and he concluded to go on to Mansfield, and Mr. Kibbe returned. At Mansfield he found the hotel mentioned, but to his amazement found it had not been occupied for two years as a hotel. He returned at once to Fort Wayne and confronted Myers, the affidavit man, who wilted and said the parties did not stop at Fort Wayne, but went to Detroit and stopped at the Russell house and registered as "James K. Allen and wife." Mr. Moyer, as soon as he reached home telegraphed to the hotel and promptly received a reply that such a name was on their register. The girl was now informed of the state of the evidence by the trustee, and breaking down, confessed it was all true. They had been there.

A warrant was issued against the professor on Thursday, but he has not been found as yet.

He has a wife and four children, all esteemed in the community, who have to suffer with him the shame of his conduct, and the deprivations thereof of his position and salary will entail. They have the sympathy of the people, but for him there is a loathing and indignation that is best endured by his absence.

They Won't Move.

Members, Oliver, of South Bend, in a letter say that since their movement looking to make arrangements for re-

moral, the people of South Bend have organized a large committee on law and order, and created an additional police force, besides pledging themselves that the firm should have protection and fair play. In view of this they have decided to meet the people fully half way, and have therefore, started their work again. The inference, therefore, is that if the pledges are fulfilled, they will remain in that city, especially as the firm has been nicely advertised.

A TALK WITH C. H. NIX.

Charles H. Nix, owner of the Mayer house property, arrived in the city this morning. THE SENTINEL representative met the gentleman at the Avenue house. "Have you decided on a future for the Mayer house?" ventured the newspaper man.

"I will put carpenters at work on the burned portion and rent the property for the purpose that will make the most money. It may be a hotel or business house, or a lively stable."

"Have you seen the committee selected to secure the co-operation of citizens in the erection of your proposed palace hotel?"

"No sir; I have not, but I understand that they have failed in their purpose, and that, of course, settles the new hotel project. If the citizens do not desire to manifest interest in the matter of improving the town they need not. I understand Dr. Schmidt, who owns a block near the Mayer house, would not give a cent. If Dr. Schmidt will take any plans and put up the hotel on his property, I will give him \$5,000 cash. The trouble with Fort Wayne, too many men in it are waiting to die. They have no life, no snap. If they had, this city would be run up to 100,000 in population in a few years. Then it would be self asserting and business men would seek it."

The Wabash Strike.

At noon the Wabash strike was unchanged, and although the United States court ordered a settlement to-day Master Meacham Barnes has received no instruction as yet. The men are steadfast and confident of success. The imported workmen are gone.

Formerly weak, nervous, dyspeptic and debilitated individuals who found only disappointment in the various bits and quack nostrums, pretended kidney medicines, etc., are agreeably surprised to regain perfect health and strength of mind and body, and complete heart's ease and freedom from aches and pains by the use of Dr. Gray's Yellow Dock and Sarsaparilla. It restores every disordered function to a normal condition.

Woman's Suffering and Relief.

Those languid, tiresome sensations, causing you to feel scarcely able to be on your feet; that constant drain that is taking from your system all its former elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system, are relieved at once while the special cause of periodical pain are permanently removed. None receive so much benefit, and none are so profoundly grateful, and show such an interest in recommending Hop Bitters as women.

A Postal Card Story.

I was affected with kidney and urinary trouble—
"For twelve years I" after trying all the doctors and patent medicines I could hear of, I used two bottles of Hop Bitters.
And I am perfectly cured. I keep it "All the time!" respectfully, B. F. Booth, Saultsburg, Tenn.—May 4, 1883.

It has cured me of several diseases, such as nervousness, sickness at the stomach, morbidly troubles, etc. I have not seen a doctor in a year, since I took Hop Bitters. All my neighbors use them. MRS. FANNIE GREEN.

\$3,000 Lost.

"A Tour to Europe that cost me \$3,000, done me less good than one bottle of Hop Bitters. They also cured my wife of fifteen years' nervous weakness, sleeplessness and dyspepsia." A. M. Auburn, N. Y.

So, BLOOMINGVILLE, O., May 1, 1885. Sirs—I have been suffering ten years, and I tried you Hop Bitters and it done me more good than all the doctors. Miss S. S. BOORM.

Baby Saved.

We are so thankful to say that our turning baby was permanently cured of a dangerous and protracted constipation and irregularity of the bowels by the use of Hop Bitters by its mother, which at the same time restored her to perfect health and strength.
